<tr>
<td>Keyword</td>
<td>contains</td>
<td>self-care</td>
</tr>
<tr>
<td>Keyword</td>
<td>contains</td>
<td></td>
</tr>
</tbody>
</table>

Add additional keywords; limit by date, material type, and language.

- Select an article from the results.

Select a relevant article.
• Log in to read the full article.

• Use tools to email the article and to get APA citation for article.

Tips*
• Brainstorm and experiment with alternate keywords: rehospitalization, readmission, repeat hospitalizations, etc.
• Find one good article, and then look at their references. You may be able to read some of the same articles that they read.
• Plan ahead. If MDC does not own or have access to a particular article, we may be able to get it for you from another library (interlibrary loan).
