• Use tools to email the article and to get APA citation for article.

Tips*
• Brainstorm and experiment with alternate keywords: rehospitalization, readmission, repeat hospitalizations, etc.
• Find one good article, and then look at their references. You may be able to read some of the same articles that they read.
• Plan ahead. If MDC does not own or have access to a particular article, we may be able to get it for you from another library (interlibrary loan).
